

CERTIFICATE

ISO 14064-3 - Specification with guidance for the validation and verification of greenhouse gas assertion

With application of the above mentioned standard the carbon footprint was examined by TÜV NORD Italia regarding its correctness and completeness for

L&S S.r.l.
Via Tommaseo, 69
Eraclea (VE)
Italy

Acting as an independent Certification Body and considering all relevant GHG sources, TÜV NORD Italia has verified the carbon footprint of the abovementioned company

to be **190,00 t CO₂eq** in **2020**

For verification, the registered office at Eraclea has been considered.
The emission sources considered within the calculation of the Corporate Carbon Footprint comprise consumptions of LPG and fuel used in company vehicles (Scope 1), electricity production taken from the grid (Scope 2), from commuting trips of employees and transportation of waste produced by the organization to treatment destination (Scope 3).
According to ISO 14064, a reasonable level of assurance has been applied for the verification.

The calculation of the carbon footprint allows the identification of reduction potentials within the operational activities.

Certificate Registration No IT-21755/2021-000
Audit report No 21755/21-000

Calculation related to year: 2020

A handwritten signature in black ink, appearing to read 'Giuseppe Sordani'.

Ente di Certificazione
TÜV NORD Italia S.r.l.

Bologna, 16-12-2021
